Note to Teachers: The AP\* Mock Exams are designed to be simulations, not replications, of the actual AP exams. They are low stakes assessments implemented before students have completed the entire course of study and the students' composite scores should in no way be interpreted as exact indicators of student performance on AP exams in May. Teachers who choose to assign course grades based on mock exam performance should be aware of the difficult challenges of both the multiple choice and free response questions and use discretion, rewarding students for what they do well, to encourage their continued efforts in test preparation.
