

Advanced Placement® (AP®) Equity Building Tools

Our Advanced Placement (AP) Equity Building Tools are the result of 18 months of work with AP educators. In early 2021, with the support of the Bill & Melinda Gates Foundation, Mass Insight established the AP Action Community to address issues of disproportionality in AP for historically marginalized students.

AP Equity Self-Assessment

This tool will help your team assess the extent to which your school and/or district AP program is promoting equitable student outcomes. Your AP team will be able to determine how the management of time, money, people, AP program, and policies support the needs of historically marginalized students in AP.

AP On-Track Framework

This resource describes the experiences educators can provide to AP students throughout the school year to help them stay on track for AP success. Find helpful ideas about what educational experiences to consider implementing in your classroom at different critical periods during the year.

Classroom Strategies for AP Success

This is a resource that compiles over 100 classroom strategies to support the success of Black and Latino students and those experiencing poverty in their AP coursework. Strategies support the development of students' academic and non-academic skills as well as the improvement of instructional quality.
